# Use of lesson plans, TC Lesson Plans, School Lesson Plans

---

- Look at TC lesson plans from the Flight Instructor Guide
- Look at school lesson plans online

# Use and assessment of PTR Administration

---

- Look at example student PTR binders and/or TC PTR
- What to look for.
- Access where the student is at and what they need to improve on.
- What should this student do in the next lesson.
- Should they continue or repeat?

# Supervision requirements for class 4's and students

---

- Class 4 Supervision Form.
- Direct supervision required.
  - Supervision binder.
- Minimum: 1 Review before First Solo and 1 Review before Flight Test

# Preparation for written exam-”Practice!”

---

- Exams online
- Questions more related to instruction than piloting and aviation theory.
- Learning Factors
- Teaching Methods
- Standards PPL, CPL

# Flight Test standards for all licenses to be taught

---

- Use of the flight test standards guide.
- Examine contents and sample of some air exercises.

# How to perform a pre-flight test (Private and Commercial)

---

- Use the actual examiners form-see online example
- Be proficient at the Flight Test Guide, know what examiner is looking for.
- Know the standards.
- Apply the 4 point marking scale.
- Do not accept excuses, grade objectively.
- Be impartial and not allow your previous interactions with the student to cloud judgment and evaluation.

# Summary

---

- Use of lesson plans - TC Lesson Plans
- Use and assessment of PTR's, Administration (Review from Lesson 1)
- Supervision requirements for class 4's and students(Review from Lesson 1)
- Preparation for written exam "know everything"
- Flight Test standards for all licenses to be taught
- How to perform a pre-flight test (Private and Commercial)

# HomeWork

---

- Trainee assigned homework to develop PGI lesson plans
